

Corporate Volunteering

Overview

Meals with Impact is a work-integrated **social enterprise** that empowers women from **refugee and migrant backgrounds** to find meaningful **employment** through food and opportunity. As a secondary purpose, we also provide culturally appropriate **food relief** to support food insecure communities across Melbourne.

Corporate Volunteering

Volunteering is a rewarding way for employees, companies and the community to make an impact.

This program includes;

- Hands-on food relief production from ingredient processing through to the final product seal.
- An engaging team building experience, fun & impactful
- Skill development working alongside qualified chefs

"Volunteering with MWI has shown me the power of an amazing and dedicated team with a holistic vision to empower women. Nikki and Harris, the incredible (and hilarious) women we worked alongside, and the fantastic music playlist made for an extremely enjoyable and memorable experience" - Previous Volunteer
